2. Hazards Identification

Product may cause respiratory irritation, headache, dizziness, nausea and vomiting. Prolonged or repeated contact with skin may cause dermatitis.

GHS Ratings:
- Flammable liquid: 3 Flash point >= 23°C and <= 60°C (140°F)
- Skin corrosive: 2 Reversible adverse effects in dermal tissue, Draize score: >= 2.3 < 4.0 or persistent inflammation
- Eye corrosive: 2A Eye irritant: Subcategory 2A, Reversible in 21 days
- Carcinogen: 2 Limited evidence of human or animal carcinogenicity

GHS Hazards
- H226 Flammable liquid and vapour
- H315 Causes skin irritation
- H319 Causes serious eye irritation
- H351 Suspected of causing cancer

GHS Precautions
- P201 Obtain special instructions before use
- P202 Do not handle until all safety precautions have been read and understood
- P210 Keep away from heat/sparks/open flames/hot surfaces – No smoking
- P233 Keep container tightly closed
- P240 Ground/bond container and receiving equipment
P241 Use explosion-proof electrical/ventilating/light/equipment
P242 Use only non-sparking tools
P243 Take precautionary measures against static discharge
P264 Wash hands thoroughly after handling
P280 Wear protective gloves/protective clothing/eye protection/face protection
P281 Use personal protective equipment as required
P321 Specific treatment (see section 4 on this SDS)
P362 Take off contaminated clothing and wash before reuse
P302+P352 IF ON SKIN: Wash with soap and water
P303+P361+P353 IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/shower
P305+P351+P338 IF IN EYES: Rinse continually with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing
P308+P313 IF exposed or concerned: Get medical advice/attention
P332+P313 If skin irritation occurs: Get medical advice/attention
P337+P313 If eye irritation persists, get medical advice/attention
P370+P378 In case of fire: Use appropriate media (see section 5) to extinguish
P405 Store locked up
P403+P235 Store in a well ventilated place. Keep cool
P501 Dispose of contents/container (see section 13)

Signal Word: Warning

Acute toxicity: Not classified

4. First Aide Measures

If respiratory discomfort occurs, remove to fresh air. If discomfort continues, administer oxygen and get medical attention.

If this product comes in contact with eyes, flush eyes with plenty of water for at least 15 minutes and seek medical help.

If this product comes in contact with skin, remove material with mineral oil, then wash with soap and plenty of water.
If swallowed, do not induce vomiting. Get medical attention. Treat symptomatically.

### 5. Fire-Fighting Measures

**Flash Point:** 40 C (104 F)

**Suitable Extinguishing Media:**
Use dry chemical, CO2, water spry(FOG) or foam.

**Unsuitable Extinguishing Media:**
Avoid solid water stream as it may scatter and spread fire.

When heated above flash point, material will release flammable vapors which can burn or be explosive in confined spaces if ignited. Do not mix with strong oxidants such as liquid chlorine or concentrated oxygen.

Elevated temperatures can lead to the formation of irritating vapors. Decomposing products may include the following materials: Carbon dioxide and Carbonmonoxide.

Minimize breathing vapors, gases or fumes of decomposition products.
Do not enter any enclosed or confined fire space without proper protective equipment, including self-contained breathing apparatus.

### 6. Accidental Release Measures

Eliminate Sources of ignition and ventilate the area. Add sand or earth or absorb spill with suitable absorbent material and place in a closed container.

Keep products out of sewers and waterways by diking or impounding. Advisece authorities if product has entered or may enter sewers or waterways. Assure conformity with applicable governmental regulations.

### 7. Handling and Storage

Vapors are heavier than air and may travel along the ground or be moved by ventilation to locations distant from the point of material handling. To prevent fumes from entering buildings or confined areas, close all air intake sources near the material handling or the work area. To prevent ignition, avoid smoking, keep away from heat, open flames and sources of static or electrical sparking. Use explosion proof motors and equipment. Tank trucks or other containers should be grounded and/or bonded when the material is transferred.

Avoid prolonged or repeated inhalation of vapors or spray mists. Avoid prolonged or repeated skin contact. Adhere to good hygienic practices. Avoid open flames. Use with adequate ventilation.

Store in a cool, dry place, out of direct sunlight and away from heat, sparks, and flame.

Health studies have shown that many petroleum hydrocarbons pose potential human health risks.
which may vary from person to person. As a precaution, exposure to liquids, vapors, mists or fumes should be minimized.

Local Exhaust: In enclosed areas. Special: None

Mechanical: In confined areas. Other: None

Respiratory Protection: Use supplied-air respirator in confined areas or with vapors in high concentrations.

Eye Protection: Safety glasses or face shield for liquid material.

Protective Gloves: Solvent impervious gloves.

Other Protective Clothing Equipment: Long sleeves and impervious clothing to protect against splashing.

### 9. Physical and Chemical Properties

- **Appearance and Odor:** Dark liquid. Mild petroleum odor
- **Vapor Pressure:** 3
- **Boiling Point:** 300-350°F
- **Evaporation Rate (Butyl Acetate=1)@ 77°F:** 0.2
- **Melting Point (R & B):** N/A
- **Vapor Density (Air = 1):** >4
- **Solubility in water:** Insoluble
- **Flash Point (PMCC):** 104°F min.
- **Specific Gravity (H2O=1):** 1.0 - 1.05

**Boiling Range 104 to 752 °C**
10. Stability and Reactivity

Conditions to Avoid: Keep away from heat, spark, open flames.

STABLE

Incompatibility (Materials to Avoid): May react with strong oxidizing materials

Not Applicable

Hazardous Decomposition Products:
Combustion: carbon dioxide (CO2), carbon monoxide (CO), nitrogen oxides, smoke, and fumes.

Hazardous Polymerization: Will not occur.

Not Applicable

12. Ecological Information.

Ecotoxicity: This product should be considered toxic to aquatic organisms. Avoid release to the environment.

Component Ecotoxicity

13. Disposal Considerations

Dispose of in accordance with local, state and federal regulations.

14. Transportation Information

This material is classified for transport as follows:
### 15. Regulatory Information

**SARA TITLE III - EPA Regulation** 40 CFR 302 (CERCLA Section 102); CFR 355 (SARA Section 301-304);

CFR 372 (SARA Section 311-313) - NOT APPLICABLE.

This product contains the following chemicals subject to the reporting requirements of SARA 313 and 40 CFR 372

1,2,4 - Trimethylbenzene      CAS# 95-63-6      Weight% 0-2

EPA HAZARD CLASSIFICATION CODE: Acute Hazard/Chronic Hazard/Fire Hazard/Pressure Hazard/Reactive Hazard - NOT APPLICABLE.

TSCA, CANADIAN DSL: Yes

State of California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65):

**WARNING!** This product contains the following chemicals which are listed by the State of California as carcinogenic or a reproductive toxin:

- 8031-18-3  Hydrated Magnesium Aluminum Silicate 5 to 10%
- 8052-41-3  Aliphatic Petroleum Distillates 20 to 30%
- 8052-42-4  Asphalt 60 to 70%

The following chemicals are listed under Canadian DSL

- None

**New Jersey Worker and Community Right to Know Hazardous Substance List:** The following substance appear on the NJ Right To Know Hazardous Substance List.

- None
