2. Hazards Identification

Product may cause respiratory irritation, headache, dizziness, nausea and vomiting. Prolonged or repeated contact with skin may cause dermatitis.

GHS Hazards

- H226: Flammable liquid and vapour
- H315: Causes skin irritation
- H320: Causes eye irritation

GHS Precautions

- P201: Obtain special instructions before use
- P202: Do not handle until all safety precautions have been read and understood
P210 Keep away from heat/sparks/open flames/hot surfaces – No smoking
P233 Keep container tightly closed
P240 Ground/bond container and receiving equipment
P241 Use explosion-proof electrical/ventilating/light/…/equipment
P242 Use only non-sparking tools
P243 Take precautionary measures against static discharge
P264 Wash hands thoroughly after handling
P280 Wear protective gloves/protective clothing/eye protection/face protection
P281 Use personal protective equipment as required
P321 Specific treatment (see section 4 on this SDS)
P362 Take off contaminated clothing and wash before reuse
P302+P352 IF ON SKIN: Wash with soap and water
P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P305+P351+P338 IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing
P308+P313 IF exposed or concerned: Get medical advice/attention
P332+P313 If skin irritation occurs: Get medical advice/attention
P337+P313 If eye irritation persists, get medical advice/attention
P370+P378 In case of fire: Use appropriate media (see section 5) to extinguish
P403 Store in a well ventilated place. Keep cool
P501 Dispose of contents/container (see section 13)

Signal Word: Warning

Acute toxicity: Not classified

### 3. Composition / Information on Ingredients

### 4. First Aid Measures

If respiratory discomfort occurs, remove to fresh air. If discomfort continues, administer oxygen and get medical attention.

If this product comes in contact with with eyes, flush eyes with plenty of water for at least 15 minutes and seek medical help.

If this product comes in contact with skin, remove material with mineral oil, then wash with soap and plenty of water.
If swallowed, do not induce vomiting. Get medical attention. Treat symptomatically.

5. Fire-Fighting Measures

Flash Point: N/A
LEL: 1.00  UEL: 7.00

Suitable Extinguishing Media:
Use dry chemical, CO2, water spry(FOG) or foam.

Unsuitable Extinguishing Media:
Avoid solid water stream as it may scatter and spread fire.

When heated above flash point, material will release flammable vapors which can burn or be explosive in confined spaces if ignited. Do not mix with strong oxidants such as liquid chlorine or concentrated oxygen.

Elevated temperatures can lead to the formation of irritating vapors. Decomposing products may include the following materials: Carbon dioxide and Carbon monoxide.

Minimize breathing vapors, gases or fumes of decomposition products. Do not enter any enclosed or confined fire space without proper protective equipment, including self-contained breathing apparatus.

6. Accidental Release Measures

Eliminate Sources of ignition and ventilate the area. Add sand or earth or absorb spill with suitable absorbent material and place in a closed container.

Keep products out of sewers and waterways by diking or impounding. Advise authorities if product has entered or may enter sewers or waterways. Assure conformity with applicable governmental regulations.

7. Handling and Storage

Vapors are heavier than air and may travel along the ground or be moved by ventilation to locations distant from the point of material handling. To prevent fumes from entering buildings or confined areas, close all air intake sources near the material handling or the work area. To prevent ignition, avoid smoking, keep away from heat, open flames and sources of static or electrical sparking. Use explosion proof motors and equipment. Tank trucks or other containers should be grounded and/or bonded when the material is transferred.

Avoid prolonged or repeated inhalation of vapors or spray mists. Avoid prolonged or repeated skin contact. Adhere to good hygienic practices. Avoid open flames. Use with adequate ventilation.

Store in a cool, dry place, out of direct sunlight and away from heat, sparks, and flame.

Health studies have shown that many petroleum hydrocarbons pose potential human health risks.
which may vary from person to person. As a precaution, exposure to liquids, vapors, mists or fumes should be minimized.

### 8. Exposure Controls / Personal Protection

Local Exhaust: In enclosed areas. Special: None
Mechanical: In confined areas. Other: None

Respiratory Protection: Use supplied-air respirator in confined areas or with vapors in high concentrations.

Eye Protection: Safety glasses or face shield for liquid material.
Protective Gloves: Solvent impervious gloves.
Other Protective Clothing Equipment: Long sleeves and impervious clothing to protect against splashing.

### 9. Physical and Chemical Properties

- **Appearance and Odor:** Dark liquid. Mild petroleum odor
- **Vapor Pressure:** 3
- **Boiling Point:** 300-350°F
- **Melting Point (R & B):** N/A
- **Solubility in water:** Insoluble.
- **Specific Gravity (H₂O=1):** 0.8 - 0.99

---

**Boiling Range 152 to 204 °C**

### 10. Stability and Reactivity

**Conditions to Avoid:** Keep away from heat, spark, open flames.
Incompatibility (Materials to Avoid): May react with strong oxidizing materials

Not Applicable

Hazardous Decomposition Products:
Combustion: carbon dioxide (CO2), carbon monoxide (CO), nitrogen oxides, smoke, and fumes.

Hazardous Polymerization: Will not occur.

Not Applicable

11. Toxicological Information

Mixture Toxicity
Inhalation Toxicity LC50: 473mg/L

Component Toxicity
64742-95-6 Aromatic Petroleum Distillates
Dermal LD50: 4,000 mg/kg (Rabbit)

Not Applicable

Eyes Skin Respiratory System
Effects of Overexposure

Carcinogenicity: NTP: Yes IARC Monographs: Yes OSHA Regulated: No

12. Ecological Information.
Ecotoxicity: This product should be considered toxic to aquatic organisms. Avoid release to the environment.

Component Ecotoxicity

13. Disposal Considerations
Dispose of in accordance with local, state and federal regulations.

14. Transportation Information
This material is classified for transport as follows:

15. Regulatory Information
SARA TITLE III - EPA Regulation 40 CFR 302 (CERCLA Section 102); CFR 355 (SARA Section)
This product contains the following chemicals subject to the reporting requirements of SARA 313 and 40 CFR 372:

1,2,4-Trimethylbenzene  CAS# 95-63-6  Weight% 0-2

EPA HAZARD CLASSIFICATION CODE: Acute Hazard/Chronic Hazard/Fire Hazard/Pressure Hazard/Reactive Hazard - NOT APPLICABLE.

TSCA, CANADIAN DSL: Yes

State of California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65):
WARNING! This product contains the following chemicals which are listed by the State of California as carcinogenic or a reproductive toxin:
- 64742-95-6 Aromatic Petroleum Distillates 1 to 5%
- 8052-41-3 Aliphatic Petroleum Distillates 10 to 20%
- Mixture Oxidized Asphalt Cutback 60 to 70%

The following chemicals are listed under Canadian DSL:
- 7429-90-5 Leafing Aluminum 10 to 20%
- Mixture Oxidized Asphalt Cutback 60 to 70%

New Jersey Worker and Community Right to Know Hazardous Substance List: The following substance appear on the NJ Right To Know Hazardous Substance List:
- 7429-90-5 Leafing Aluminum
- Mixture Oxidized Asphalt Cutback
