1 - Identification

Product Name: Silver Coat Fibered Aluminum
Product Code: # 302
Trade Name: Del-Val "Delivering Value"

Company: United Asphalt Company
   P.O. Box 291
   Cedar Brook, NJ 08018

Phone: 800-843-0317

Emergency Telephone Number
Chemtrec: 800-424-9300

2. Hazards Identification

Product may cause respiratory irritation, headache, dizziness, nausea and vomiting. Prolonged or repeated contact with skin may cause dermatitis.

GHS Ratings:
- Flammable liquid 3  Flash point >= 23°C and <= 60°C (140°F)
- Skin corrosive 2  Reversible adverse effects in dermal tissue, Draize score: >= 2.3 < 4.0 or persistent inflammation
- Eye corrosive 2A  Eye irritant: Subcategory 2A, Reversible in 21 days
- Carcinogen 2  Limited evidence of human or animal carcinogenicity

GHS Hazards
- H305 May be harmful if swallowed and enters airways
- H315 Causes skin irritation
- H320 Causes eye irritation

GHS Precautions
- P202 Do not handle until all safety precautions have been read and understood
- P210 Keep away from heat/sparks/open flames/hot surfaces – No smoking
3. Composition / Information on Ingredients

4. First Aide Measures

If respiratory discomfort occurs, remove to fresh air. If discomfort continues, administer oxygen and get medical attention.

If this product comes in contact with eyes, flush eyes with plenty of water for at least 15 minutes and seek medical help.

If this product comes in contact with skin, remove material with mineral oil, then wash with soap and plenty of water.

If swallowed, do not induce vomiting. Get medical attention. Treat symptomatically.

5. Fire-Fighting Measures

Flash Point: 40 C (104 F)
LEL: 1.00 UEL: 7.00

Suitable Extinguishing Media:
Use dry chemical, CO2, water spry(FOG) or foam.
Unsuitable Extinguishing Media:
Avoid solid water stream as it may scatter and spread fire.

When heated above flash point, material will release flammable vapors which can burn or be explosive in confined spaces if ignited. Do not mix with strong oxidants such as liquid chlorine or concentrated oxygen.

Elevated temperatures can lead to the formation of irritating vapors. Decomposing products may include the following materials: Carbon dioxide and Carbon monoxide.

Minimize breathing vapors, gases or fumes of decomposition products. Do not enter any enclosed or confined fire space without proper protective equipment, including self-contained breathing apparatus.

6. Accidental Release Measures

Eliminate Sources of ignition and ventilate the area. Add sand or earth or absorb spill with suitable absorbent material and place in a closed container.

Keep products out of sewers and waterways by diking or impounding. Advise authorities if product has entered or may enter sewers or waterways. Assure conformity with applicable governmental regulations.

7. Handling and Storage

Vapors are heavier than air and may travel along the ground or be moved by ventilation to locations distant from the point of material handling. To prevent fumes from entering buildings or confined areas, close all air intake sources near the material handling or the work area. To prevent ignition, avoid smoking, keep away from heat, open flames and sources of static or electrical sparking. Use explosion proof motors and equipment. Tank trucks or other containers should be grounded and/or bonded when the material is transferred. Avoid prolonged or repeated inhalation of vapors or spray mists. Avoid prolonged or repeated skin contact. Adhere to good hygienic practices. Avoid open flames. Use with adequate ventilation.

Store in a cool, dry place, out of direct sunlight and away from heat, sparks, and flame.

Health studies have shown that many petroleum hydrocarbons pose potential human health risks which may vary from person to person. As a precaution, exposure to liquids, vapors, mists or fumes should be minimized.

Boiling Range 152 to 204 °C

10. Stability and Reactivity

Conditions to Avoid: Keep away from heat, spark, open flames.

STABLE

Incompatibility (Materials to Avoid): May react with strong oxidizing materials

Not Applicable

Hazardous Decomposition Products:
Combustion: carbon dioxide (CO2), carbon monoxide (CO), nitrogen oxides, smoke, and fumes.
Hazardous Polymerization: Will not occur.

Not Applicable
Hazardous polymerization will not occur.

11. Toxicological Information

Mixture Toxicity
Inhalation Toxicity LC50: 987mg/L

Component Toxicity
64742-95-6 Aromatic Petroleum Distillates
Dermal LD50: 4,000 mg/kg (Rabbit)

Not Applicable

Eyes    Skin    Respiratory System

Effects of Overexposure

Carcinogenicity: NTP:? Yes    IARC Monographs?: Yes    OSHA Regulated?: No

15. Regulatory Information

SARA TITLE III - EPA Regulation 40 CFR 302 (CERCLA Section 102); CFR 355 (SARA Section 301-304);

CFR 372 (SARA Section 311-313) - NOT APPLICABLE.

This product contains the following chemicals subject to the reporting requirements of SARA 313 and 40 CFR 372.
1,2,4 - Trimethylbenzene         CAS#  95-63-6          Weight%  0-2

EPA HAZARD CLASSIFICATION CODE: Acute Hazard/Chronic Hazard/Fire Hazard/Pressure Hazard/Reactive Hazard - NOT APPLICABLE.

TSCA, CANADIAN DSL: Yes

State of California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65):
WARNING! This product contains the following chemicals which are listed by the State of California as carcinogenic or a reproductive toxin:
   64742-95-6  Aromatic Petroleum Distillates  1 to 5 %
   8052-41-3  Aliphatic Petroleum Distillates  10 to 20 %
   Mixture   Oxidized Asphalt Cutback  50 to 60 %

The following chemicals are listed under Canadian DSL
   7429-90-5  Leafing Aluminum  10 to 20 %
   Mixture   Oxidized Asphalt Cutback  50 to 60 %

New Jersey Worker and Community Right to Know Hazardous Substance List: The following substance appear on the NJ Right To Know Hazardous Substance List.
   7429-90-5  Leafing Aluminum
   Mixture   Oxidized Asphalt Cutback
